

EFFECTIVE

October 1, 2017.

Subject(s)

FOM 802-1, Psychotropic Medication in Foster Care

Documentation supporting psychotropic medication use (evaluations and notes from medication review appointments) no longer has to be documented in the initial and updated service plans and child assessment of needs and strengths as this information is required to be documented in the Medical Passport.

Reason: Implementation, Sustainability, and Exit Plan, Dwayne B. v. Snyder
